

SUMMARY

Data Science Analytics with 3 years of experience across the data science pipeline, focusing on Machine Learning and Artificial Intelligence (AI). Experienced in applying advanced algorithms and statistical models, such as Natural Language Processing, Convolutional Neural Networks, and Time Series Analysis. Designing and implementing solutions that enhance business value and decision-making processes using tools like TensorFlow, PyTorch, and Tableau to optimize operations, drive revenue growth, and improve customer experiences, delivering projects that support business success and strategic goals.

WORK EXPERIENCES

INDOSAT OOREDOO HUTCHINSON DIGITAL CAMP (IDCamp)

Bandung, ID

Jan 2025 – Jun 2025

Data Scientist Facilitator - Freelance

- Mentored 25 students, ensuring a high graduation rate through structured learning and hands-on projects.
- Led interactive sessions, enhancing participants' proficiency in AI, machine learning, and data analytics.
- Designed structured learning pathways to achieve project completion rate with high-quality deliverables.
- Provided expert guidance on capstone projects, to develop industry-standard solutions.
- Evaluated student progress through rigorous assessments, improving problem-solving and analytical skills.
- Applied industry expertise to bridge the gap between academic concepts and real-world data science challenges.

DRETAIL.ID

Bandung, ID

Data Analyst – Full Time

Oct 2024 – Present

- Built, scheduled, and monitored workflows seamlessly using Apache Airflow, ensuring consistent and efficient data operations.
- Designed and implemented robust ETL processes, optimizing data flow and improving data accessibility and handling.
- Architected complex data pipelines, successfully integrating diverse data sources to deliver high-quality, actionable insights.
- Analyzed data to uncover trends, patterns, and insights, directly contributing to data-driven decision-making.
- Processed and managed large-scale Big Data with precision, ensuring high-quality and reliable outputs.
- Developed and automated daily, weekly, and monthly reporting, streamlining business intelligence processes.
- Implemented Tableau dashboard visualizations to enhance strategic decision-making and monitor key business metrics.

BANGKIT ACADEMY – Led by Google, GoTo, Traveloka

Company Capstone Advisor at Bizzagi – Part Time

Jakarta, ID (Nov 2024 - Dec 2024)

- Guided and supported students in developing an LLM for SEO Audit, achieving a 94% success rate in project completion.
- Optimized students' problem-solving abilities by introducing advanced prompt engineering techniques to improve SEO insight scores and generate actionable recommendations for SEO score enhancement.
- Mentored students in applying AI-driven models to analyze SEO data, leading to the identification of key optimization opportunities.
- Developed a structured approach for evaluating SEO performance, helping students pinpoint factors affecting SEO scores and implement effective improvements.

Company Capstone Advisor at Bizzagi – Part Time

Jakarta, ID (Apr 2024 - Jun

2024)

- Guided and supported students during their final capstone project Aspect Based Sentiment Analysis, achieving a 93% success rate.
- Facilitated hands-on learning in machine learning and AI, boosting student readiness for industry challenges by applying real-world case studies.

BRAINCORE.ID

Data Scientist – Contract

Bandung, ID (May 2024 – July 2024)

- Created high-accuracy revenue forecasting models using python, improving financial planning and strategic decision-making by 25%.
- Developed a churn rate prediction model, enabling proactive customer retention strategies that reduced churn by 8%.
- Partnered with the digital marketing team to develop and execute data-driven strategies, leading to a significant revenue growth from 8.92% to 1022% over 3 months, through targeted customer segmentation and predictive analytics.
- Conducted Market Basket Analysis using python, identifying customer purchasing patterns that led to a 15% increase in cross-selling and upselling strategies.
- Performed Cohort and RFM Analysis using python to enhance customer retention and targeted marketing campaigns, boosting overall sales by 10%.
- Implemented interactive sales dashboards using Tableau, providing detailed insights that enhanced strategic decision-making.

Lead Curriculum Developer – Part Time

Jakarta, ID (Jan 2024 – May 2024)

- Mentoring about AI/ML/Data Science/Analysis/Business Intelligence, improving student learning outcomes by 50%.
- Created and assessed educational materials and programs, resulting in a 50% increase in student engagement and satisfaction.

CENTRAL BUREAU OF STATISTIC (BADAN PUSAT STATISTIK)

Tasikmalaya, ID

Data Analyst – Internship

Jul 2023 – Sep 2023

- Preprocessed visitor data using Python, providing actionable insights that increased visitor experience by 20%.
- Developed interactive dashboards with Tableau, supporting better decision-making and resource allocation.

MINISTRY OF COMMUNICATION AND INFORMATICS (DINAS KOMUNIKASI DAN INFORMATIKA)

Tasikmalaya, ID

Internship Coordinator – Internship

Dec 2022 – Mar 2023

- Coordinated intern schedules and project timelines using Google Sheets, enhancing project efficiency and intern satisfaction by 15%.
- Documented project details and generated regular reports, contributing to a more effective and streamlined internship program.

PT. KIMIA FARMA, TBK

Jakarta, ID

Big Data Analyst – Project Based Internship

May 2022 – Jun 2022

- Preprocessed sales data using Python.
- Developed a sales dashboard with Looker Studio that accelerated sales reporting accuracy by 20%.

EDUCATIONS

BANGKIT ACADEMY – Led by Google, GoTo, Traveloka

Jakarta, ID

Machine Learning Specialization

Aug 2023 – Jan 2024

Relevant Hard Skill: Natural Language Processing, Convolutional Neural Network, Time Series, Sequence, Forecasting.

Final Capstone Project: Rice Quality Detection using TensoFlow.
Credential ID:

- Student Report: [{link}](#)
- TBI English Certification: [{link}](#)

UNIVERSITAS PERJUANGAN TASIKMALAYA (PERJUANGAN TASIKMALAYA UNIVERSITY)
Bachelor of Informatics Engineering
Relevant Course: Artificial Intelligence (AI)
Cumulative GPA: 3.83/4.00

Tasikmalaya, ID
Jun 2023 – May 2024

STMIK TASIKMALAYA
Bachelor of Informatics Engineering
Cumulative GPA: 3.83/4.0
Relevant Course: Database Management using SQL, Statistics, Linear Algebra & Matrix, Calculus, Data Mining, Image Processing.

Tasikmalaya, ID
2020 – 2023

LEADERSHIP & ACTIVITIES

STMIK TASIKMALAYA
President of Computer Club

Tasikmalaya, ID
Aug 2022 – Mar 2023

- Successfully increased the number of registered members by 80% compared to the previous year by implementing targeted marketing strategies and a selective recruitment process inspired by startup models, enhancing the overall quality of new members.
- Organized and led club activities, boosting member engagement by 30% through the use of project management tools. Coordinated events and significantly improving members' technical skills.

Business Analyst

Jul 2022 – Mar 2023

- Developed and executed business strategies, resulting in a 15% increase in operational efficiency and a 20% improvement in project planning and execution.
- Learned and shared insights on business flows and models using the Business Model Canvas and business flow diagrams, fostering better understanding and alignment within the club.

HONOR & AWARDS

SUCOFINDO SCIENCE HACKATHON FESTIVAL

Oct 2024

- First Place Winner Category Electric Vehicle (EV) | [{Certificate}](#)
- Best of the Best Team Winner | [{Certificate}](#)
- Contribute for development machine learning model, business model, business flow, and strategic planning goals.

MOTEKAR INNOVATION COMPETITION Associated by Universitas Perjuangan Tasikmalaya

May 2024

First Place Winner Innovation competition

- Contributed to the development of the business model, business flow, and strategic planning for the winning project.
- Project Link : [{Prototype}](#)

INDONERIS NATIONAL IT COMPETITION Associated by AMIKOM Purwokerto

Dec 2023

Third Place Winner Business Plan Competition

- Awarded third place in the Business Plan Competition with a focus on "Use of Technology for Society in Technopreneurship."
- Generated a business plan addressing the integration of technology in technopreneurship, highlighting its impact on economic growth and societal advancement.
- Certificate Link | [{Certificate}](#)

TRAINING

JuaraGCP \$10 from Google Cloud

Aug 2024 – Sep 2024

Google Cloud Skill Boost Profile & Certification | [{Profile}](#)

- Developed proficiency in AI/ML tools, including TensorFlow, LookML, and BigQuery ML, for tasks such as image classification, speech and language analysis, sentiment analysis, and predictive data modeling.
- Gained experience in utilizing Google Cloud's APIs and services, including Cloud Vision API, Natural Language API, and Visual Inspection AI, to analyze and interpret complex datasets.
- Acquired foundational and advanced skills in machine learning, including managing ML projects, creating ML pipelines, and deploying generative AI solutions using Vertex AI on Google Cloud.
- Demonstrated ability to build and manage cloud-based infrastructure with tools like Terraform, Kubernetes, Cloud SQL, and AlloyDB, ensuring efficient and secure data management.
- Developed expertise in big data processing and analysis using PySpark and Hadoop, enhancing the ability to manage large-scale data sets and perform complex data transformations.

CERTIFICATION

Google Certified TensorFlow Developer

Mar 2024

Credential ID: 97226361 | [{Certificate}](#)

Digitalent KOMINFO Certified Associate AI Analyst

Nov 2021

Credential ID: 051362140121-63/TA.DTS/BLSDM.KOMINFO/2021 | [{Certificate}](#)

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS, JavaScript, JSON

Frameworks: Tensorflow, PyTorch

Developer Tools: Git, Github, Keras, Seaborn, Tableau, Looker Studio, Pandas, NumPy, Sklearn, YOLO, Roboflow, Ms. Excel, Ms. PowerPoint, Google Cloud Platform (GCP), PySpark/Spark, Hadoop.

Language: Indonesia (Native), English (Business Communication)
